

Do you have several people within your training organization that would benefit from being a Pikes Peak ASTD chapter member, but are unable to attend the monthly meetings on a regular basis? Wouldn't it be nice if you could share your membership with others in your organization? We've listened and are now offering Bundled Corporate Memberships. Keep reading to find out how it works.....

Introducing Bundled Corporate Memberships

Corporate Membership allows all employees of your organization to partake in the benefits a membership in Pikes Peak ASTD has to offer. We refer to this new corporate membership option as a "bundle."

What are the Benefits of Bundling?

For \$150, your organization buys an unassigned membership and a seat at each monthly meeting. With this membership your organization can send anyone from your company, who is available to attend, to a monthly meeting.

The \$150 fee is the cost of membership **plus** all of the monthly meetings (excluding annual Learning Summit), so there would be no additional costs to attend chapter meetings throughout the year. A minimum of two memberships is required to start your Corporate Bundle.

That's right--no additional cost to your company when you register for the meetings! Pikes Peak ASTD's annual All Day Learning event (aka Learning Summit or Day with A Master) is not included. Corporate Bundles receive member pricing for this annual event.

For example: Let's say you have 6 trainers, a designer and a manager in your organization. You could purchase two Bundled Corporate Memberships and any two people listed on the corporate account could attend the monthly meetings at no additional cost. No more worrying about trying to get reimbursed or if you will be able to make the monthly meeting. Just look at your training schedule and send the people that are available to attend.

Bundle Administrator

When you sign-up for a corporate membership bundle, you must identify one individual as the "bundle" administrator. This member will be the primary contact for membership-related questions and transactions. You may change your bundle administrator if necessary by contacting the [webmaster](#).

Adding Members to Your Corporate Membership Bundle

The bundle administrator may add members to your corporate membership bundle at any time. This enables your staff to take advantage of monthly programs and ensures that they receive information on chapter news and upcoming events.

IMPORTANT NOTE: You may only add employees from your company to your corporate membership bundle.

Follow the steps below to add a member to your corporate bundle.

1. Log in to the website as the bundle administrator. (Contact the [webmaster](#) if you have any problems logging in.)
2. Click on "**View profile**" located in the left navigation pane. (Under your name.)
3. Under the Bundle summary heading click on "**Add member**".
4. You will be prompted to complete a member application. Enter all required information and click on "**Save**".
